ENCLOSED STAIRS, DIRECT HOME ENTRY

Real plot width: 10.80 m at the street → 10.00 m at the rear | 17.00 m deep | 176.8 m² footprint

CONCEPT ONLY / Dimensions in metres / Front at bottom, garden at top / Side walls have no windows / Right boundary angles inward

REVISION 05: replaces the 9.00 m width of Revision 04

01 GROUND FLOOR

GROUND FLOOR

176.8 m² gross footprint

Rental warehouse ≈ 100 m² + WC

Private garage at front right

Stair behind the garage

Home access through garage

No access through rental area

WINDOWS

Front and rear only.

PLOT (MEASURED 31 OCT 2026)

Street side: 10.80 m

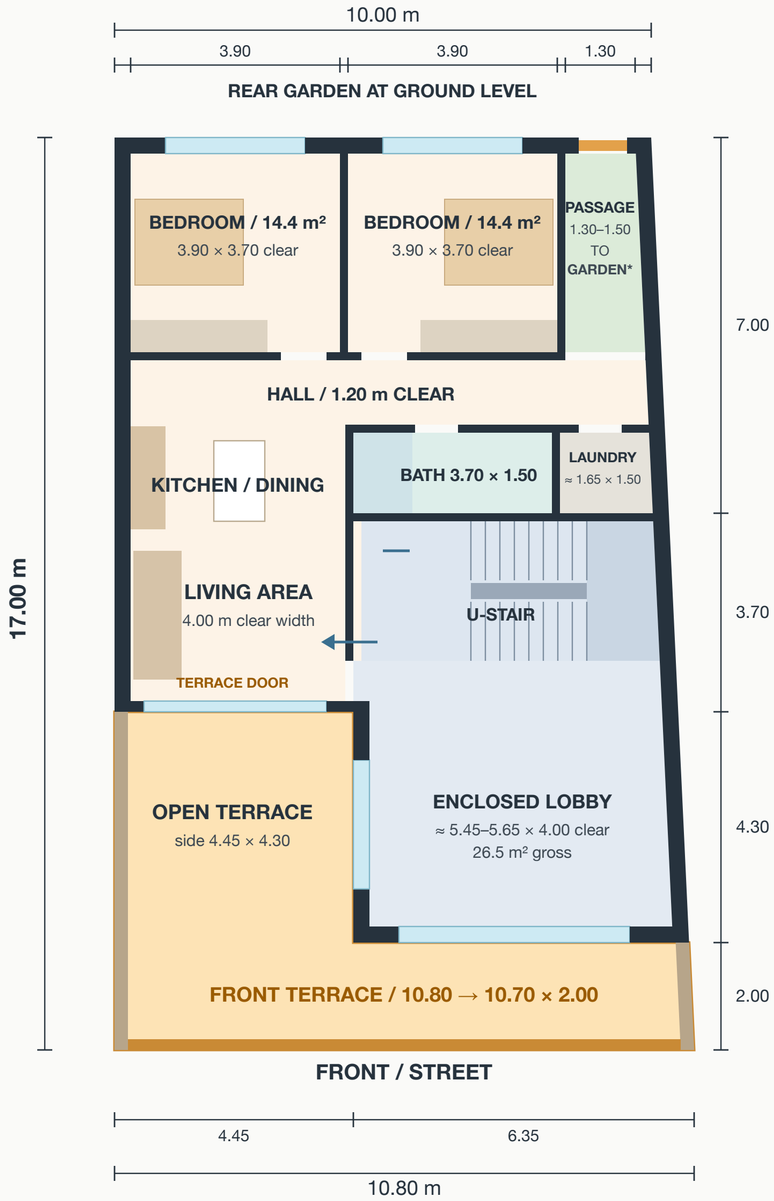

Rear building line: 10.00 m

Depth to rear wall: 17.00 m

Right boundary angles in 0.80 m

Left boundary drawn straight

02 UPPER FLOOR

AREA CHECK (GROSS)

House block: 109.7 m²

Stair / lobby: 26.5 m²

ENCLOSED TOTAL: 136.2 m²

OPEN TERRACE: 40.6 m²

front 21.5 + side 19.1

136.2 + 40.6 = 176.8 m²

Gross areas include walls.

Terrace before railings/curbs.

HOUSE + GARDEN ACCESS

Living 4.00 m clear

Two bedrooms ≈ 14.4 m² each

Right passage 1.30–1.50 m

*Rear exit is provisional.

External landing / stair needed if garden is at ground level.

DESIGN BASIS / READ BEFORE USING THIS SKETCH

Width update: the plot was measured on 31 Oct 2026 at 10.80 m on the street side and 10.00 m where the building ends. Revision 04 assumed 9.00 m.

Width check at the rear: 0.30 + 3.90 + 0.15 + 3.90 + 0.15 + 1.30 + 0.30 = 10.00 m. At the street: 0.30 + 4.15 + 0.15 + 5.90 + 0.30 = 10.80 m.

The extra width is shared out as a proposal (wider living, bedrooms, garage, lobby); room splits are for the architect to confirm.

Indoor route: garage > enclosed stair > roofed lobby > living room. The living room has a separate door to the open terrace.

New enclosure is conceptual: verify roof, structural support, headroom, ventilation and fire separation from garage / rental storage.

Tape measurement only: which boundary angles, boundary clearances and planning approval must be confirmed against the cadastral survey.
