HOUSE OVER STORAGE, STAIR WITH ITS OWN DOOR

10.80 m at the street → 10.00 m at the rear | 14.70 m deep | 152.9 m² footprint = 39.7% of the 385.05 m² plot

CONCEPT ONLY / Dimensions in metres / Front at bottom, garden at top / Side walls have no windows / Right boundary angles inward

REVISION 06: 14.70 m deep for the 40% coverage limit (Revision 05: 17.00 m, 176.8 m², 45.9%)

01 GROUND FLOOR

GROUND FLOOR

152.9 m² gross footprint

Storage ≈ 91 m²

Garage 5.10 × 8.50, 2 cars side by side, 4.80 m door, free behind

L-stair inside the garage

Storage WC 1.35 × 1.55 in the corner, door from the rear storage

COVERAGE (40% LIMIT)

Plot (certificate): 385.05 m²

40% allowed: 154.0 m²

This design: 152.9 m² = 39.7%

Revision 05: 176.8 m² = 45.9%

PLOT (TAPE, 31 OCT 2026)

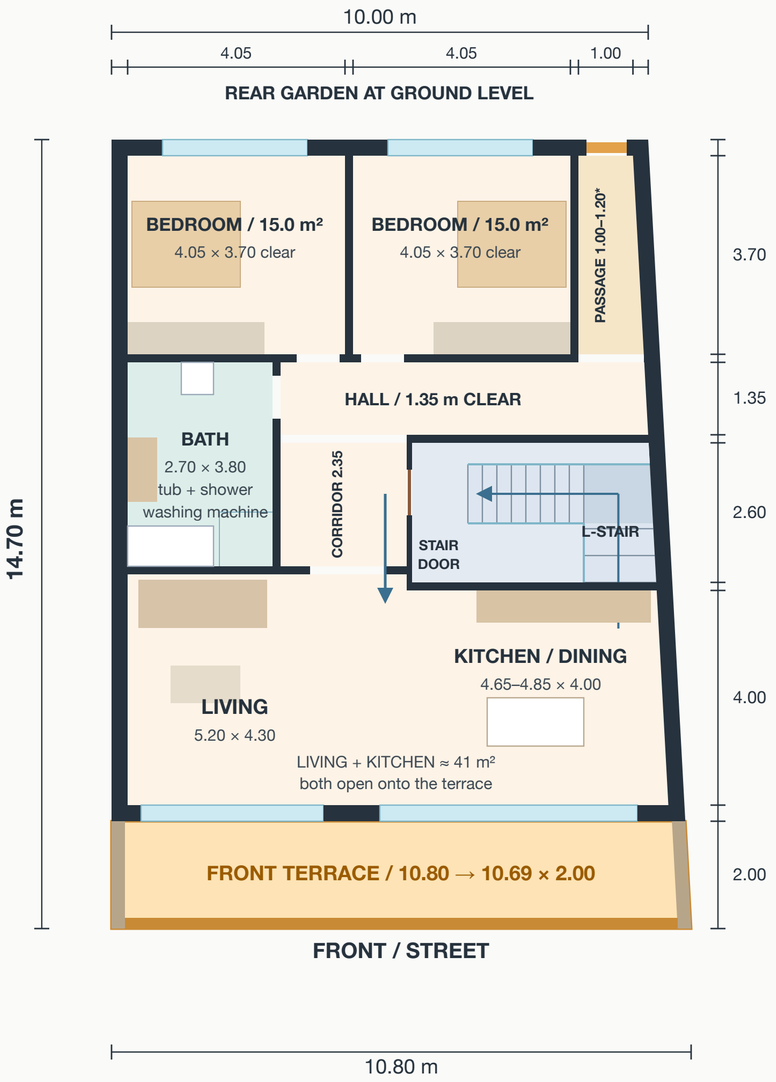

Street side: 10.80 m

Rear wall: 10.00 m

Right boundary angles in

Left boundary drawn straight

02 UPPER FLOOR

AREA CHECK (GROSS)

ENCLOSED HOUSE: 131.4 m²

FRONT TERRACE: 21.5 m²

131.4 + 21.5 = 152.9 m²

Gross areas include walls.

THE WAY HOME

Garage (pass door) > L-stair inside the garage > stair door > corridor > living + kitchen at the front, bedrooms through the hall.

GARDEN ACCESS

1.00 m passage to the garden door. *External stair is provisional.

DESIGN BASIS / READ BEFORE USING THIS SKETCH

Coverage: only 40% of the land may be built on. 40% of 385.05 m² (ownership certificate) = 154.0 m². At 14.70 m deep the footprint is 152.9 m² (39.7%).

Confirm with the municipality which area counts (footprint vs. the 2.00 m terrace over the garage) and whether the surveyed area replaces 385.05 m².

Width check at the rear wall: 0.30 + 4.05 + 0.15 + 4.05 + 0.15 + 1.00 + 0.30 = 10.00 m. At the street: 0.30 + 4.47 + 0.15 + 5.56 + 0.30 = 10.80 m. Garage 5.10 m clear at its rear wall, 8.50 m deep; car spaces 2 × 2.20 = 4.40; 2.40 between the WC and the stair.

Indoor route: garage (pass door in the 4.50 m garage door) > L-stair (inside the garage, turns left) > stair door > corridor > living + kitchen.

New enclosure is conceptual: verify roof, structural support, headroom, ventilation and fire separation from garage / storage.

Tape measurement only: which boundary angles, boundary clearances and planning approval must be confirmed against the cadastral survey.
